PROFESSIONAL SUMMARY

Backend engineer (Node.js / TypeScript) with 3.5 years building production B2B SaaS at startup and growth-stage companies. Owns systems end-to-end: RESTful and GraphQL APIs, PostgreSQL schema design, multi-tenant RBAC, webhook and event-driven pipelines, Docker + AWS deployments. Currently sole backend engineer on Terrisage, a B2B CRM live on App Store + Play Store, handling lead ingestion from Meta Ads, MagicBricks, and 99acres at sub-2s latency. Experienced in high-throughput ETL (20K+ records/day), subscription billing, and full test pyramids -- ships production code with observability baked in (Sentry, Uptime Robot, Jest/Supertest).

CORE COMPETENCIES

Node.js + TypeScript

PostgreSQL + Prisma

REST API Design

Webhook + Event-Driven Pipelines

Multi-Tenant SaaS Architecture

React 18+ / Next.js

Docker + AWS

GraphQL API Design

SKILLS

Languages: TypeScript, JavaScript, Python, Ruby **Backend:** Node.js, Express, NestJS, Rails, Apollo GraphQL, Prisma, REST APIs
Databases: PostgreSQL, MongoDB, InfluxDB **Frontend:** React 18+, Next.js, Redux, TanStack Query
Infrastructure: AWS (EC2, S3, API Gateway, Lambda), Docker, CI/CD, Git
Messaging: Webhook pipelines, Airflow ETL, event-driven ingestion patterns
Observability: Jest, Supertest, Maestro E2E, Sentry, Uptime Robot

WORK EXPERIENCE

V-Align Technologies Pvt Ltd Jan 2024 - Present

Full Stack Engineer (Backend-Heavy) - Bengaluru, India

- Multi-Tenant SaaS Backend:** Architected backend (Rails, GraphQL, PostgreSQL, Next.js) with tenant-scoped RBAC and data isolation; built Razorpay recurring billing integration reducing manual ops by 60%.
- High-Throughput ETL Pipeline:** Orchestrated Airflow ETL processing 20K+ records/day for cross-tenant data synchronization; PostgreSQL schema optimized for multi-tenant query isolation.
- Event-Driven Integrations:** Built webhook receivers and API gateway integrations for third-party data ingestion; Engineered agent-driven automation increasing proposal throughput from 4 to 7 per week.
- Infrastructure:** Deployed via Docker on AWS EC2 + API Gateway, reducing deployment time from hours to minutes; implemented CI/CD pipeline for zero-downtime releases.
- MSME Platform:** Delivered mobile-responsive assessment platform (Next.js, Node.js, PostgreSQL), reducing report generation from 60 minutes to under 10 minutes.

Digital Blanket (formerly Flamencotech Pvt Ltd) Aug 2022 - Jan 2024

Full Stack Developer - Bengaluru, India

- Built real-time IoT monitoring platform with WebSocket dashboards (React, Redux), device integration (Raspberry Pi, ESP32, MQTT, Telegraf, InfluxDB) enabling sub-second ingestion for people-counting and air-quality monitoring.
- Optimized time-series query layer, improving dashboard load time by 30%.

PROJECTS

Terrisage - B2B Real Estate CRM 0-to-1 | Live

Node.js | TypeScript | PostgreSQL | Prisma | GraphQL | AWS | React Native

- Built complete backend from 0 to 1 as sole engineer; GraphQL API (Node.js + Prisma + PostgreSQL) serving React Native mobile app and web CRM -- live on App Store + Play Store.
- Multi-tenant architecture with scoped RBAC + data isolation; webhook pipelines for Meta Ads, MagicBricks, and 99acres for automated lead capture and routing at sub-2s ingestion latency.
- REST + GraphQL API design with pagination, filtering, and cursor-based navigation; OpenAI voice-to-text for agent notes and GPT-generated property descriptions.
- Full test pyramid: 90+ Jest / Supertest backend suites, Maestro E2E, Sentry tracing, Uptime Robot monitoring.

LiftUP - Gym Management SaaS Live Demo

Node.js | TypeScript | PostgreSQL | Next.js | Docker

Multi-tenant backend with scoped data isolation and RBAC; REST APIs for membership and workout management supporting 500+ members across tenants at 99.5% uptime.

ACHIEVEMENTS

- 400+ DSA problems solved (LeetCode + GFG)
- Shipped 15+ 0-to-1 features across production SaaS teams
- Led backend engineering for 2 production B2B SaaS products simultaneously

EDUCATION

Bachelor's Degree	2021
Full Stack Web Development	2022
Masai School	
AI Engineering	2025
